

12th International Conference on Service Oriented Computing (ICSOC 2014)

Paris, 2.-7.11.2014

Alexander Norta

The purpose of participation: Chairing 2 workshops: RMSOC'14(<https://ai.wu.ac.at/rmsoc2014/>) and ISC'14 (<http://isc2014.yolasite.com/>), exploring further collaboration options for papers and projects with other scientists and industry participants.

ICSOC is the top international forum for academics, industry researchers, developers, and practitioners to report and share groundbreaking work in service-oriented computing. ICSOC fosters cross-community scientific excellence by gathering experts from various disciplines, such as business process management, distributed systems, computer networks, wireless and mobile computing, cloud computing, networking, scientific workflows, services science, management science, and software engineering.

ICSOC 2014 brought together scientists, engineers, and practitioners from multiple disciplines to focus on service-oriented, cloud-based, innovative enterprises ready for the 21st century. The conference featured research and industry presentations, forward-looking keynote presentations, workshops, demonstrations, tutorials, and a PhD track.
