

## **4th International Conference on Current and Future Trends of Information and Communication Technologies in Healthcare**

Gunnar Piho

Viibisin Halifaxis konverentsil (4th International Conference on Current and Future Trends of Information and Communication Technologies in Healthcare) ja osalesin konverentsi töötoas (1st International Workshop on Metamodelling for Healthcare Systems 2014) ettekandega teemal "Archetypes based meta-modeling towards evolutionary, dependable and interoperable healthcare information systems" (<http://mmhs.hib.no/programme/>). Konverentsil osalemine andis 3.1 publikatsiooni. Publikatsioon on avaldatud Elsevier poolt (<http://www.sciencedirect.com/science/article/pii/S1877050914010345>). Ettekanne läks hästi - palju vastukaja ja uusi tutvusi.
