Conference description:

CSEDU 2014, the International Conference on Computer Supported Education, aims at becoming a yearly meeting place for presenting and discussing new educational environments, best practices and case studies on innovative technology-based learning strategies, institutional policies on computer supported education including open and distance education, using computers. In particular, the Web is currently a preferred medium for distance learning and the learning practice in this context is usually referred to as e-learning. CSEDU 2014 is expected to give an overview of the state of the art as well as upcoming trends, and to promote discussion about the pedagogical potential of new learning and educational technologies in the academic and corporate world.

Conference Areas

- 1 . Information Technologies Supporting Learning
- 2 . Learning/Teaching Methodologies and Assessment
- 3 . Social Context and Learning Environments
- 4 . Domain Applications and Case Studies
- 5 . Ubiquitous Learning
