The e-Learning 2015 conference aims to address the main issues of concern within e-Learning. This conference covers both technical as well as the non-technical aspects of e-Learning.

The conference accepts submissions in the following seven main areas: Organisational Strategy and Management Issues; Technological Issues; e-Learning Curriculum Development Issues; Instructional Design Issues; e-Learning Delivery Issues; e-Learning Research Methods and Approaches; e-Skills and Information Literacy for Learning.

The conference proceedings will be submitted for indexing to INSPEC, EI Compendex, Thomson ISI, ISTP and other indexing services.

English is the conference official language.

This conference gave a fresh overview of the e-learning situation in the world. It was very important for my doctoral study because topical themes were considered and discussed. Connections and friendship, which were made there are very useful for me. My presentation „MAXIMIZING AND PERSONALIZING E-LEARNING SUPPORT FOR STUDENTS WITH DIFFERENT BACKGROUNDS AND PREFERENCES“ aroused the interest and I was invited to publish my extended paper in Interactive Technology and Smart Education International Journal (<http://www.emeraldinsight.com/loi/itse>).

The poster features a dark green background with a central image of a globe and a computer keyboard. The text is primarily in white and red. The title 'mccsis' is in a large, stylized font, with '2015' in a similar font to its right. Below the title, the subtitle 'multi conference on computer science and information systems' is written in a smaller font. The location and dates are listed in the top right corner. The main heading 'CALL FOR PAPERS' is prominently displayed in the center. Below this, there are sections for 'Types of Contributions', 'Important dates', and a list of 'CONFERENCES'. At the bottom, the website URL 'http://www.mccsis.org' is provided, along with logos for 'iadis' and 'UNIVERSIDAD DE LAS PALMAS DE GRAN CANARIA'.
